Forecast For Wales
Issued by Met Office Exeter
at 0400 on Sunday 10 Jan 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Dry at first but becoming milder and wet on Monday.

Today:
A cold start with a few fog patches. Remaining largely dry throughout the day with sunny spells at times. Chance of a few isolated showers around the coast. Becoming milder. Maximum temperature 8 deg C (46 deg F).

Tonight:
Cloud building during the evening with perhaps some patchy light rain. Overnight a few clearer spells before cloud thickens from the northwest by dawn. A milder night in the north. Minimum temperature -1 deg C (30 deg F).

Monday:
Cloud thickening throughout the morning with outbreaks of heavy rain during the afternoon. A mild and windy day. Skies clearing overnight and turning colder with a frost in the north. Maximum temperature 10 deg C (50 deg F).

Outlook for Tuesday to Thursday:
Colder with sunshine on Tuesday although cloudier with perhaps rain in the far south and west. Outbreaks of heavy rain on Wednesday and milder. Drier on Thursday with sunny spells.
